- Peer reviews

Stantec offers in-house audio visual expertise across all areas of design and installation. Our team of specialist AV engineers can assist in projects large and small, from commercial office fitouts, hotels, universities, performing arts centres, hospitals and major transport projects.

We work with clients, user groups, architects and project consultants to ensure your AV design meets the needs of all stakeholders and are future-proofed for longevity and practicality.

Our AV project contributions include Parramatta Aquatic Centre, Presbyterian Ladies College Performing Arts Centre, Greenland Centre and New Museum for Western Australia.

We think outside the box to find the best-tailored solution for your project, gaining experience through our contributions to reliable buildings, striving for outcomes that solve challenges while positively shaping the communities we serve for the better.

A seamless Audio-visual experience

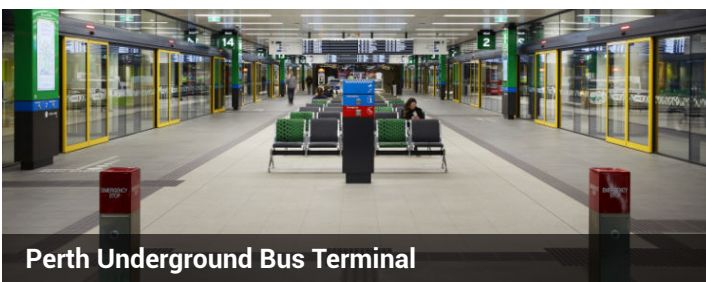

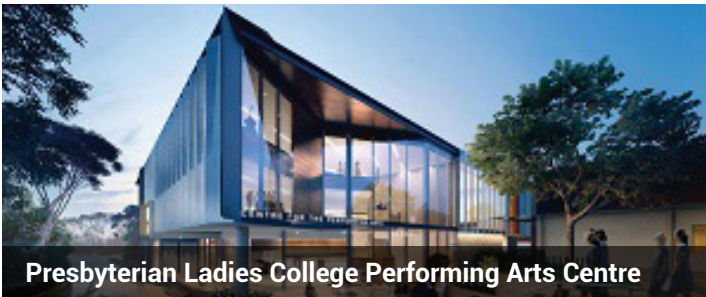

Our job is to make the magic happen behind the scenes, ensuring our clients get an exceptional AV experience every time, which meets the required functionality and exceeds expectations – not budget.

Our team of experts have experience in designing AV needs for a number of environments, including:

- Boardrooms, conference, training and meeting rooms
- Lecture theatres, auditoriums and classrooms
- Multi-purpose rooms and performing arts centres
- Control rooms and operations monitoring centres
- Courtrooms and hearing rooms
- Convention and exhibition centres
- Theatres

Our experience extends to a variety of industry sectors, including Commercial and corporate, education, hospitality, entertainment and culture, performing arts, sports and retail, government and law, health and aged care and security surveillance.

We are involved in developing interactive and holographic presentation solutions as well as assisting with the production of the new international AV standards.

Working together

Communities are fundamental. Whether around the corner or across the globe, they provide a foundation, a sense of place and of belonging. That's why at Stantec, we always design with community in mind.

We care about the communities we serve—because they're our communities too. We're designers, engineers, scientists, and project managers, innovating together at the intersection of community, creativity, and client relationships. Balancing these priorities results in projects that advance the quality of life in communities across the globe. Stantec trades on the TSX and the NYSE under the symbol STN.
